

Cinematic Font Library

A Free Font Library for Premiere Pro

Downloading the Fonts

To install the fonts necessary to use the cinematic text style library simply click the following links:

- [Montserrat](#)
- [Tall Dark and Handsome](#)
- [Eurostile](#)
- [Lato](#)
- [Helvetica Neue](#)
- [Bank Gothic](#)
- [Bebas Neue](#)

Installing the Library

In your download you will find a file labeled 'CinematicStyleLibrary.prsf'. Open up Premiere Pro and navigate to the title window. Simply click the title style menu button (the small menu button next to the 'Title Style' text) and click 'Replace Style Library'. Now simply navigate to the CinematicStyleLibrary.prsf file and select 'OK'. Your default library will now be replaced with the cinematic style library.

Additional Help

With highly technical products such as After Effects templates and Premiere Pro Assets, we receive a large volume of support requests that require detailed responses. This means that unlike our paid products, **we currently do not offer technical support with RocketStock freebies.**

All of the freebies found on RocketStock are 100% free to use. However, you may not distribute or sell the templates in any way without prior authorization from RocketStock.
